

Executive Summary Report Prepared by Dr. Gourinath Banda, Organizer of

Mozilla Responsible Computing Workshop 2025

Indian Institute of Technology Indore

Dates: 11–12 October 2025

Principal Investigator: Dr. Gourinath Banda,

Professor, Department of Computer Science and Engineering, IIT
Indore

Supported by: Mozilla Foundation awarded “Responsible Computing Challenge India” Grant

Website of the workshop: <https://mozilla-rcc-iiti.netlify.app/>

1. Introduction

The Mozilla Responsible Computing Workshop 2025 was organized at the Indian Institute of Technology Indore on 11–12 October 2025 under the auspices of the Mozilla Foundation’s “Responsible Computing Challenge India Cohort 2024/25” program. The workshop aimed to promote awareness and capacity building among faculty members integrating the principles of responsibility, ethics, sustainability, and accountability into computing education and research. These faculty members were lecturers, Assistant Professors, Associate Professors and Professors from the institutes and universities in Indore who are teaching Under-graduate and Post-graduate courses in Computer Science and Engineering and associated streams. The associated streams comprise Information technology, Internet of Things, Artificial Intelligence, Machine Learning, Data Science, etc. The event brought together experts from academia to discuss the rapidly evolving role of computing systems in shaping society — particularly in the domains of AI, digital transformation, blockchain, and human-computer interaction — while emphasizing responsible, inclusive, and sustainable technology development.

2. Inaugural Session

The workshop was inaugurated by Shri Jibu Elias, who joined live from Switzerland despite his busy schedule, delivering an inspiring address on Mozilla’s global initiatives for responsible technology. The event on its first day was also graced by Prof. Suhas S. Joshi, Director, IIT Indore, who delivered the inaugural address and emphasized the importance of embedding responsibility and ethics into computing curricula and research culture.

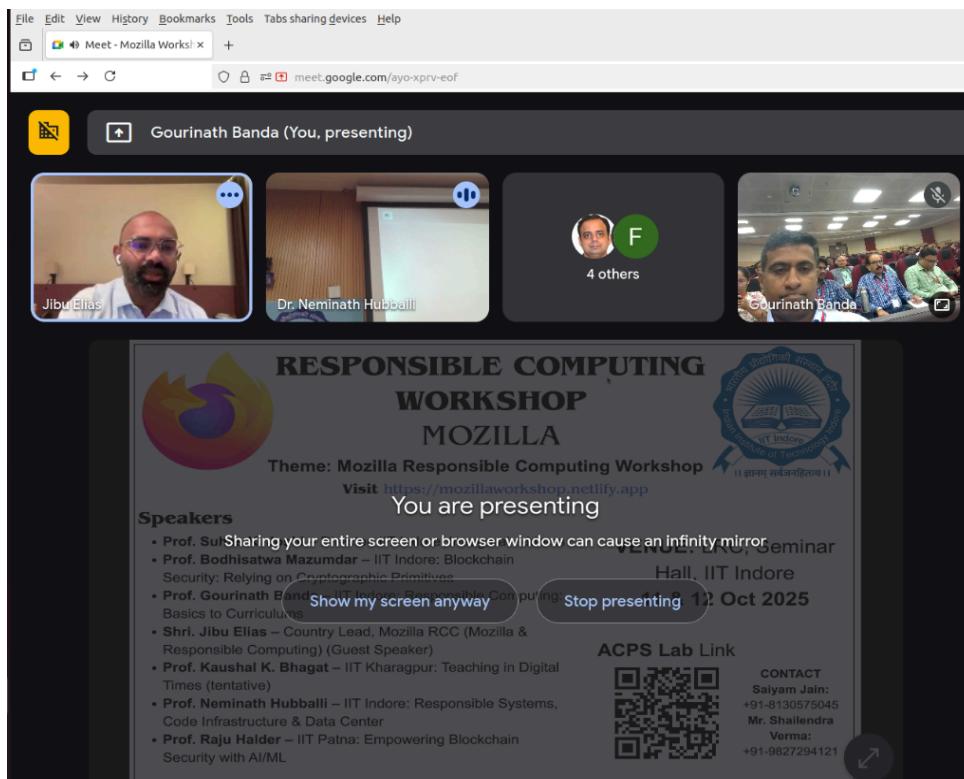

Figure 2. Photograph of the Inaugural Session with Shri Jibu Elias, Mozilla India Fellow

3. Workshop Sessions

The two-day program featured thematic sessions and hands-on activities. Speakers from diverse technical domains in Computer Science and Engineering shared perspectives on Responsible computing, Ethical AI, Sustainability in Technology, and Digital governance.

Highlights from the sessions included:

- Integration of Responsible Computing principles in Engineering Education and Coursework design
- AI and Ethics: Challenges in algorithmic accountability
- Blockchain for Digital Governance and transparent systems
- Responsible Systems Development and inclusive design practices
- Environmental Impacts of Computing Systems and sustainable architectures
- Human–Computer Interaction for Responsibility and Accessibility

The following are the sessions along with speaker details:

Day1: 11 Oct 2025

9:30 AM ~ 10:30 AM: Arrival, Registration, Breakfast

10:45 AM ~ 11:15 AM: Inaugural on “Responsible Computing: Why?” by Shri. Jibu Elias, Mozilla India Fellow.

11:15 AM ~ 12: 15 PM: Talk#1: “Responsible Systems, Code Infrastructure & Data Center” by Dr. Neminath Hubballi, Professor in Computer Science and Engineering, IIT Indore.

12:15 PM ~ 1:15 PM: Talk#2: “From Basics of Computer Science and Engineering to Responsible Computing: A perspective, opportunity and mandate” by Dr. Gourinath Banda, Professor in Computer Science and Engineering, IIT Indore.

1:15 PM ~ 2:00 PM: Lunch

2:00 PM ~ 3:00 PM: Talk#3: “Blockchain Security: Relying on Cryptographic Primitives” by Dr. Bodhisatwa Mazumdar, Associate Professor in Computer Science and Engineering, IIT Indore

3:00 PM ~ 3:15 PM: Inaugural (Deferred): “Importance of Responsible Computing” by Professor Dr. Suhas K. Joshi, Director, IIT Indore.

3:15 PM ~ 4:15 PM: Talk#4: “Blockchain Security: Relying on Cryptographic Primitives” by Dr. Raju Halder, Associate Professor in Computer Science and Engineering, IIT Patna

Day2: 12 Oct 2025

9:30 AM ~ 10:30 AM: Arrival, Breakfast

10:30 AM ~ 11:00 AM: Talk#5: "Blockchain for Responsibility Computing" by Dr. Gourinath Banda, Professor in Computer Science and Engineering, IIT Indore.

11:00 AM ~ 11:45 AM: Talk#6: "Transforming Education: The Power of Augmented and Virtual Reality", Dr. Kaushal K. Bhagat, Assistant Professor, Advanced Technology Development Centre, IIT Kharagpur.

12:00 PM ~ 1:00 PM: "Project Proposal Writing: Towards funded research in Responsible Computing and UNSDG relevant themes" (Part1), by Dr. Gourinath Banda, Professor in Computer Science and Engineering, IIT Indore.

1:00 PM ~ 2:00 PM: Lunch

2:00 PM ~ 3:00 PM: Talk#7: "Project Proposal Writing: Towards funded research in Responsible Computing and UNSDG relevant themes" (Part2), by Dr. Gourinath Banda, Professor in Computer Science and Engineering, IIT Indore.

3:15 PM ~ 5:00 PM: Activity#1: "Hands-on session: Simulated Project Proposal Cycle from Team formation, Ideation, Proposal Writing till Project proposal presentation".

5:00 PM ~ 5:45 PM: Activity#2: "A Tour of IIT Indore Campus"

4. Hands-on Session: Project Proposal Writing Simulation

One of the most impactful sessions of the workshop was the hands-on 'Project Proposal Writing Simulation in the topics closely related to Responsibility and Sustainability along appropriate UNSDGs', designed to train participants in end-to-end project development under the Responsible Computing framework.

Activity Flow:

- 1. Consortium Formation:** Participants were grouped into teams representing multi-institutional collaborations.
- 2. Ideation Phase:** Teams identified socially relevant computing problems aligned with the UN Sustainable Development Goals (SDGs).
- 3. Proposal Drafting:** Each team prepared a concise research proposal outlining objectives, methodology, societal impact, and responsibility considerations. We have designed a template for the proposal submission format, this was circulated as the workbook to each of 55 plus participants. This workbook is attached as appendix (Appendix I) to this report.
- 4. Presentation and Jury Evaluation:** Each team delivered a 3-minute pitch presentation evaluated by a jury comprising workshop organizers.

Figure 3. The group photograph all the participants of Mozilla Responsible Computing Workshop (Date: 11 Oct 2025).

Figure 4. Faculty teams presenting their Project ideas as part of Project Proposal Hands-on Session (Date: 12 Oct 2025).

5. Participant Engagement and Logistics

The workshop received enthusiastic participation from faculty members across engineering colleges primarily from Indore and neighboring regions in Madhya Pradesh. Interactive sessions, open discussions, and Q&A panels ensured a highly participatory environment.

Sponsored refreshments and meals were provided throughout both days, including breakfast, tea/snacks, lunch, and high-tea networking sessions. The workshop concluded with a guided tour of the IIT Indore campus, offering participants exposure to IIT's academic environment and research facilities.

6. Outcomes and Impact

The workshop achieved its goals in fostering awareness and competence in responsible computing education and research.

Key outcomes include:

- Formation of inter-institutional collaborations among faculty participants
- Development of proposal prototypes addressing responsible technology themes
- Enhanced understanding of ethical design frameworks in computing
- Strengthened local ecosystem of responsible technology educators and researchers in central India

7. Acknowledgments

The organizing committee expresses sincere gratitude to:

- Director, IIT Indore, Prof. Suhas S. Joshi for his encouragement and institutional facilitation
- Mozilla Foundation for the Responsible Computing Challenge grant and continued support
- Guest speakers Drs. Bodhisatwa M., Gourinath B., Kaushal B., Neminath H. and Raju H., for their invaluable contributions
- Student volunteers, namely, Saiyam Jain, Srikanth Chebolu and Sai Sanjana, Technical staff of the Department of Computer Science and Engineering, namely, Shailendra V., Vikas T. and Sonu.
- the IIT Indore for the infrastructural and overall facilitation support of this event

8. Annexures

1. Photographs
2. Participant List
3. Project Proposal Writing Simulation Workbook
4. Feedback summary

Appendix#1 “Photographs”

Research Project Proposal Simulation Workbook

■ Mozilla Workshop @ IIT Indore | 11–12 October 2025

This workbook guides you through the step-by-step simulation of writing a fundable research proposal in areas such as AI, ML, IoT, and Data Science under Responsible Computing frameworks.

Learning Objectives:

- Identify a focused research problem
- Write measurable scientific objectives
- Design methodology & work packages
- Plan deliverables, timelines, and budgets
- Map proposal to SDGs & Responsible Computing

Step 1 – Idea to Problem Definition

Domain Selection: ■ AI ■ IoT ■ ML ■ Data Science ■ Cyber-Security ■ Other _____

Contextual Background:

Problem Statement:

Motivation & Relevance:

Mozilla Workshop @ IIT Indore

Step 2 – Objectives and Hypotheses

Objective No.	Description (Use measurable verbs: develop, design, validate, quantify)
1	
2	
3	

Hypotheses or Research Questions:

Expected Scope Boundaries:

Mozilla Workshop @ IIT Indore

Step 3 – Methodology & Work Packages

Work Package	Title	Activities	Duration (months)	Lead / Partner	Deliverable
WP1					
WP2					
WP3					

Tools, Data & Infrastructure:

- Simulation tools ■ Datasets ■ Hardware ■ Cloud resources

Mozilla Workshop @ IIT Indore

Step 4 – Deliverables, Impact & SDG Mapping

Type	Description	Verification Method	Timeline
Prototype / Tool			
Dataset / Report			
Publication / IP			
Outreach / Training			

Societal & Scientific Impact:

SDG & Responsible Computing Linkage:

SDG	Relevance	Link to RC Principle
SDG 9		
SDG 12		
SDG 13		
SDG 17		

Mozilla Workshop @ IIT Indore

Step 5 – Budgeting & Feasibility

Head	Description	Amount (₹ Lakh)	Justification
Equipment			
Manpower			
Consumables			
Travel			
Contingency			
Overhead (20%)			
Total			

Feasibility & Risk Mitigation:

Collaborations / Mentors:

Mozilla Workshop @ IIT Indore

Step 6 – Peer Review & Reflection

Criterion	1	2	3	4	5	Comments
Clarity						
Novelty						
Feasibility						
SDG/RC Linkage						
Presentation Quality						

Self-Reflection:

- Hardest part about proposal framing:
- Key learning from feedback:
- Next improvement step:

Next Steps & Resources:

DST / MeitY / ANRF templates, Mozilla RC repository, Mentorship: gourinath@iiti.ac.in

“Write proposals that convince, not merely describe.”

Mozilla Workshop @ IIT Indore

Workshop on Responsible Computing – Feedback Form

Dear Participant,

Thank you for attending the Workshop on Responsible Computing. We value your feedback to help us improve future events. Kindly take a few minutes to fill out the following form.

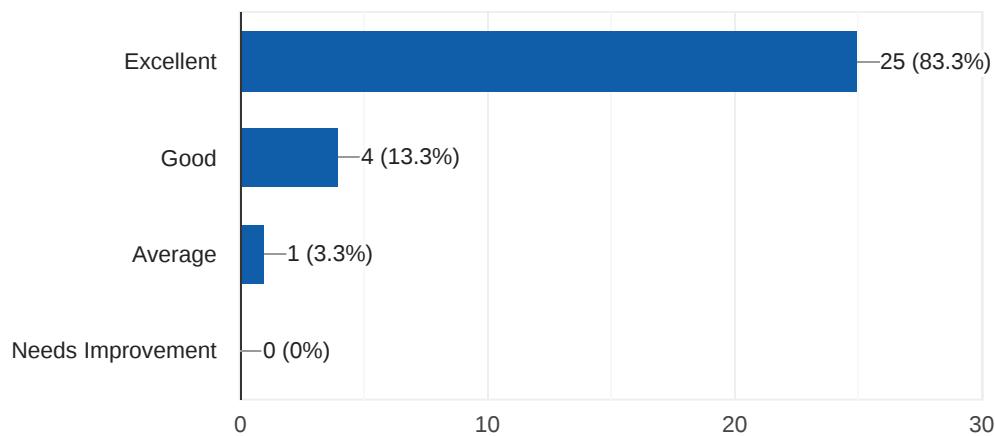

Feedback Form

Registration Process:

[!\[\]\(898a81de9c4aff71234b2158571b7213_img.jpg\) Copy](#)

How was your experience with the registration process?

30 responses

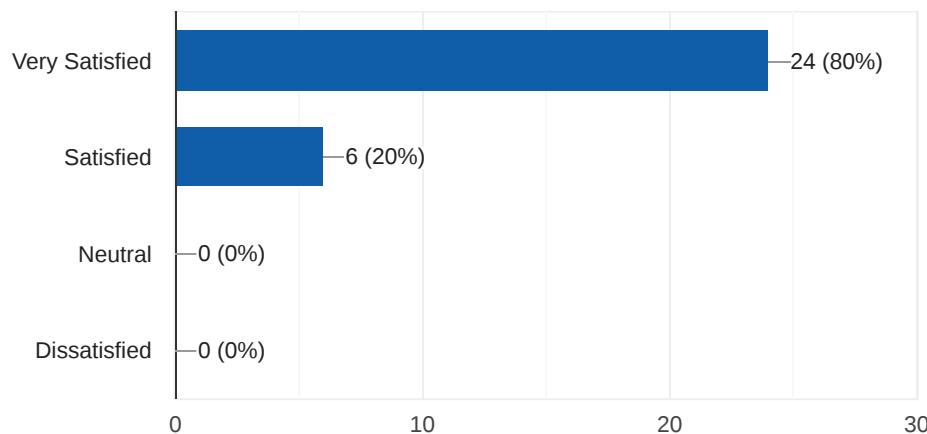

Communication & Coordination:

 Copy

How satisfied were you with the coordination and notification of acceptance from the organisers?

30 responses

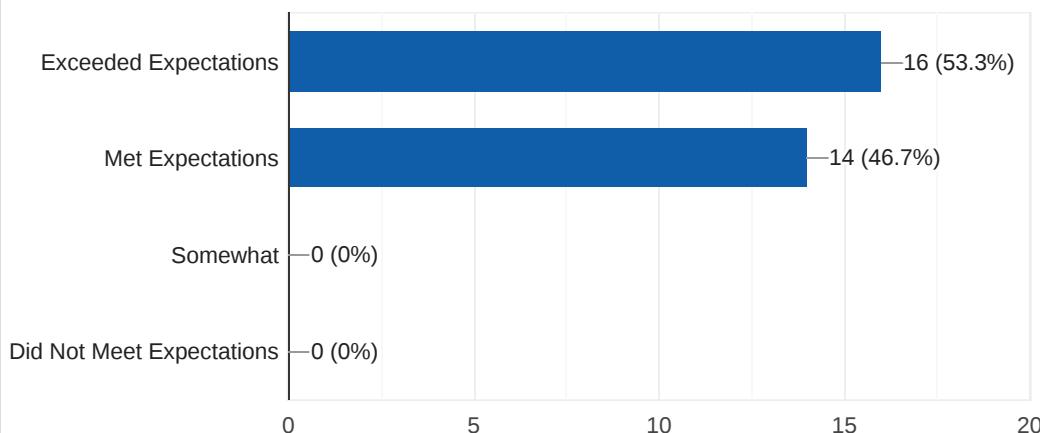

Workshop Content:

 Copy

Did the workshop topics on Responsible Computing inspire you and meet your expectations?

30 responses

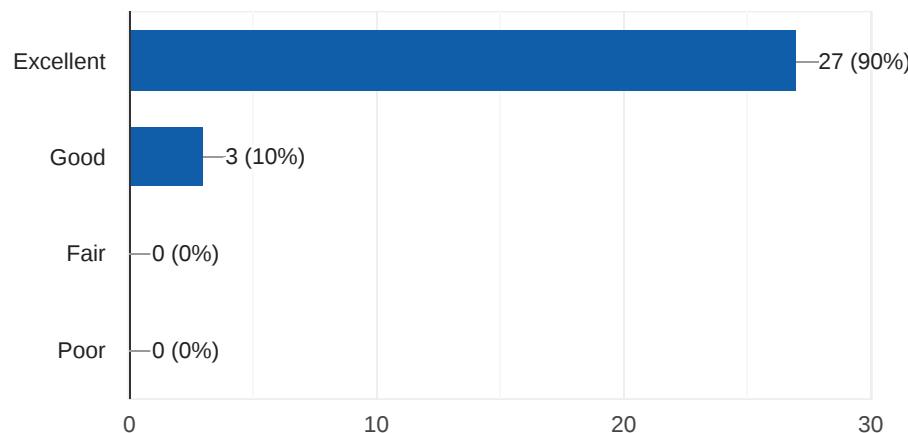

Session Quality:

 Copy

How would you rate the quality and clarity of presentations, discussions and hands-on sessions?

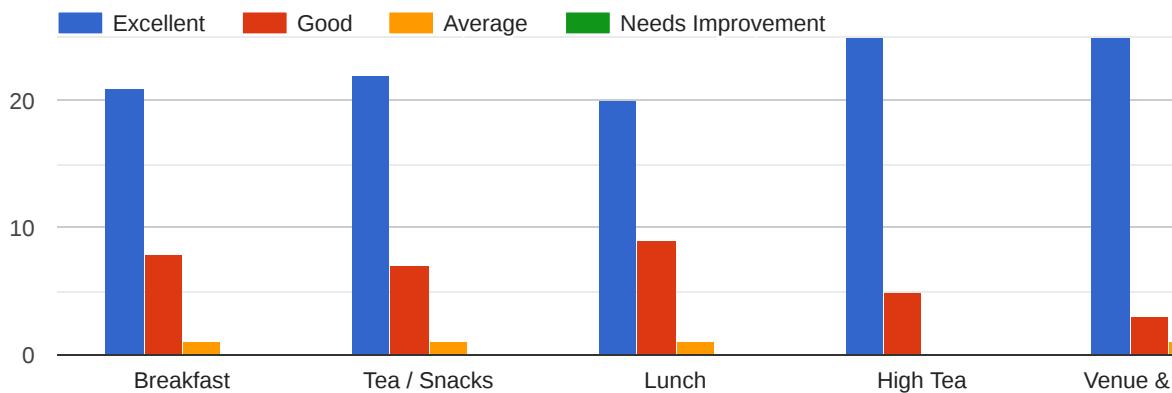

30 responses

Hospitality & Arrangements:

 Copy

Please rate your experience for each:

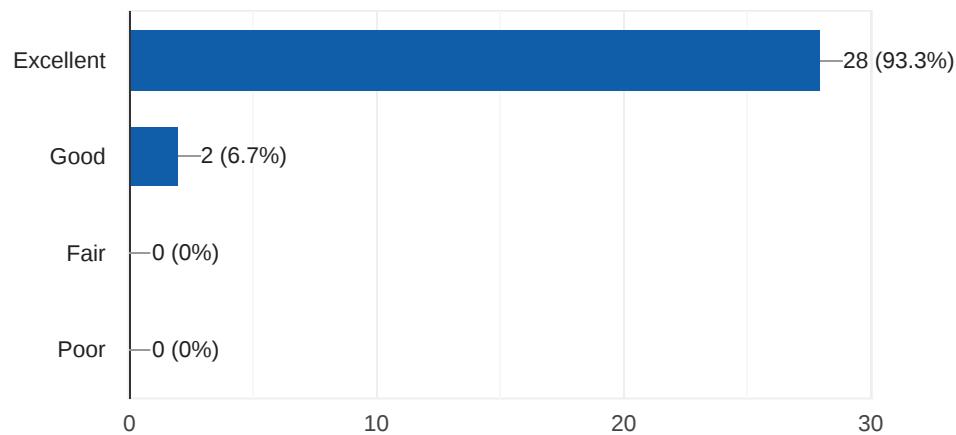

Overall Experience

 Copy

How would you rate your overall experience of the two-day workshop?

30 responses

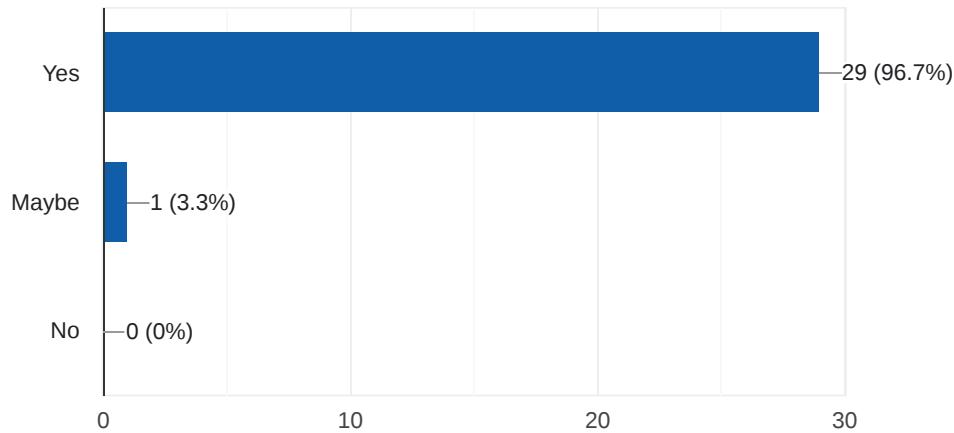

Future Participation

 Copy

Would you be interested in attending similar workshops or events organised by IIT Indore?

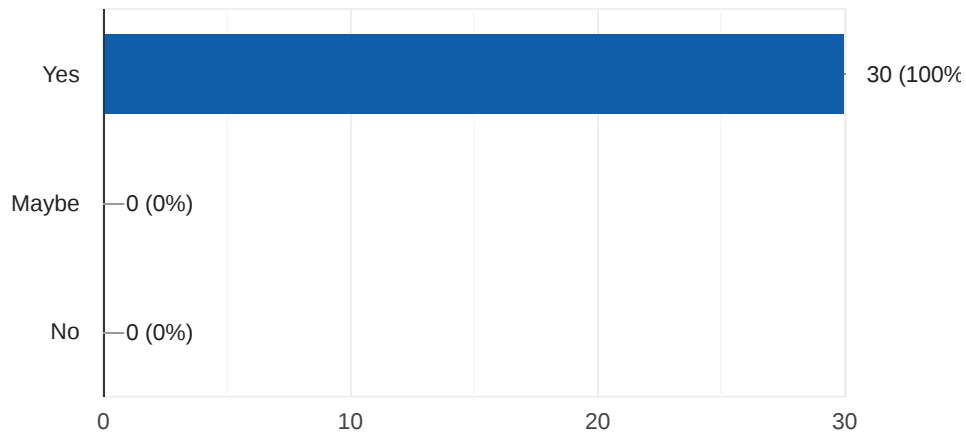

30 responses

Have you understood the importance of "Responsible Computing" in Undergraduate Computer Science and Engineering studies?

no

Thanks for involving us in the very informative session.

The workshop was very well organized and informative. Looking forward to more such workshops in the future.

Workshop was organized very nicely, the best part was the demo session on writing proposals.

Workshop on Responsible Computing was very well conducted and informative. Please share notes and reading material on cloud computing, Blockchain, c,c++ and other programming language for teaching purposes if possible.

We missed the opportunity to share on-the-spot feedback about the event from the podium. Nevertheless, the event was excellent, and I would be keen to participate in more such interactive learning experiences that stimulate my research and analytical thinking.

NA. All the sessions are very knowledgeable and hospitality is very good.

Overall it's a very good experience at IIT. I really enjoyed and learned some new things from there.

I am Very grateful to be a part of this workshop from my side every thing was up to do the mark

Very Live and practical work shop module , specially on Proposal design. While overall content and speakers were presented and share the knowledge very desiredful.

It was an enriching experience learning about responsible innovation, AI ethics, and the importance of sustainability in the computing field.

Grateful for the opportunity to learn from experts at IIT Indore about responsible and human-centered computing approaches.

Thankyou for all....

Wonderful learning opportunity

It was very Informative workshop. It should be more hands-on to enhance practical knowledge.

Workshops based on emerging trends frequently be organized.

2nd day session was completed with little delay, but over all good experience. I am expecting more such sessions.

Wonderful workshop.

I am interested to attend similar workshops with hands on activities.

Great experience it was, please share video and photographs of the workshop. Specially video of the activity (Team AirNow)

No Suggestion.

This was a two-day workshop, which provided a wealth of learning. It would be great if similar events were organized in the future. In my opinion more hands-on (practical) sessions and the number of days (at least one week) would be ideal for building connection to the topic.

Thank you

.

Offline sessions were more interesting

I wish to be a part of reasech with you in collaboration in near future.

It was a great experience.

It's very nice

More interaction with Experts and More offline Sessions should be there

All are Good

Submit some snapshots of the event (not mandatory)
